UNIVERSAL
LIBRARY

INTRODUCTORY

The aim of this work is to give a complete and accurate the public and private educational system of the United States. The information has been thoroughly revised to date, and before printing of the book, proofs submitted to the various school officials for final revision and correction.

In the main *Geographical Classification*, in addition to the school officials, will be found a complete list of all schools and together with information as to the kind of school, class of admitted, religious denomination, year established, and the the governing head of the institution. A second complete list of institutions is given in the *Classified Directory* in which the are arranged alphabetically by states, classified according to type of school, giving a ready reference or complete list of any particular class of institution, together with the names of the executive officers. A complete *Alphabetical Index* of all schools and colleges found at the back of the book from which any institution may be instantly located.

The *Public School System* is fully covered by lists of the educational officials and county superintendents of schools, boards of education, city superintendents, public high school principals, and the directors and supervisors of special subjects. A list of the more prominent *Libraries* with the name of the librarian and number of bound volumes, is included in the present work. An *Educational Business Directory* is also given, which will be

of much value to the school executive as a convenient and ready reference list of reliable manufacturers and dealers supplying every known need of the school and college.

It is believed the work will be found of value to every one in any way associated with educational institutions, or engaged in educational work. Acknowledgment is made to the various State and City Superintendents of public instruction, private school officials, librarians and others for their kind co-operation and assistance in furnishing data and information necessary for the completion of the volume. While no labor has been spared in the effort to have the work as accurate as possible at the time of going to press, continual changes necessarily preclude absolute accuracy.

School officials, librarians and others will confer a favor by notifying us of changes, and by calling our attention to any inaccuracies or omissions in any department of the work.

THE PUBLISHERS.

CONTENTS

SCHOOL TEXT-BOOK COMMISSION

Public school text-books are required by state law to be furnished free by the several towns. There is no State Text-Book Commission and no state uniformity of text-books.

STATE TEACHERS' ASSOCIATION

FRED W. BURRILL, *President*Superintendent City Schools, Augusta
 ADELBERT W. GORDON, *Secretary*..... Augusta

COUNTY SUPERINTENDENTS OF SCHOOLS

Maine has no county superintendents of schools, but has what is known as the "Union Systems" of school supervision. The towns and cities of the state, of which there are 520, are combined into groups by the State Commissioner of Education, and the members of the school committees of the towns in these groups elect one person to serve as superintendent of schools of the group or union, devoting his whole time to that work. The only exception to this arrangement is in the case of towns or cities having more than fifty schools. These are allowed to elect a superintendent of schools to serve that town or city alone.

PUBLIC, PRIVATE AND ENDOWED SCHOOLS AND COLLEGES

Alfred, York Co., pop. 896.
 Town Supt.—M. E. Wright.
 High School—Raymond E. LaCasce, prin.

MASSACHUSETTS

COUNTY SUPERINTENDENTS OF SCHOOLS

Massachusetts has no county superintendents of schools, but has instead what is called the town system of school supervision, each city or town, or, where the towns are small, a group of towns, having its individual superintendent of schools.

PUBLIC, PRIVATE AND ENDOWED SCHOOLS AND COLLEGES

Ablington, Plymouth Co., pop. 5,455.

Sch. Com.—Wm J. Sheehan.
Clerk Sch. Comm.—W. P. Hutchinson.
Town Superintendent—C. A. Record.

SUPERINTENDENTS OF SCHOOLS

Vermont has the town system of schools. The schools of the state are chiefly under the direction of superintendents who give their full time to this work. Any town or city may elect a town superintendent or may combine with other towns in a supervisory district. The superintendents of these districts are elected by the local directors subject to approval by the State Board of Education.

Burgess Laboratories, Inc., C. F.,
205 W. Wacker Drive, Chicago

ADDING AND CALCULATING MACHINES

These machines may be divided into three general classes, (a) Listing, which provide a printed record of items and totals. (b) Nonlisting, which give only totals and do not print. (c) Computing, which are nonlisting and which are used for high speed calculating.

Burroughs Adding Machine Co.
Detroit, Mich.

Felt & Tarrant Mfg. Co.
1713 N. Paulina St., Chicago, Ill.

Pruitt Co.,
194 N. LaSalle St., Chicago, Ill.

Sundstrand Adding Machine Co.
Rockford, Ill.

ADDRESSING MACHINES

These machines are manufactured in two general types, (a) Those making impressions by means of fibre or tissue stencils. (b) Those printing from type, including the machines using metal plates on which the characters are embossed. Either can be had in hand operated, or motor driven. Their special usefulness to schools arises with permanent mailing lists, such as the alumni, catalogue mailings, form letters and the like. The addresses may be imprinted on letters, envelopes, catalogue or magazine wrappers.

BALANCES

The common balance consists essentially of a beam resting at its middle point upon a fulcrum and furnished at its extremities with two scale pans; the goods to be weighed are placed in one of these, and known weights placed in the other until the beam assumes a horizontal position. In most of the delicate balances used for chemical analysis, the distance of the center of gravity from the fulcrum can be regulated within small limits. Such balances are protected from air currents, dust, etc., by being enclosed in glass cases with sliding fronts. See, Laboratory Equipment.

BAND AND ORCHESTRA INSTRUMENTS

Through a school band and orchestra the message of music and a better appreciation of its value are carried to a larger number of people in the community. In every school will be found a nucleus of interested prospective band or orchestra players.

BATHING SUITS AND APPAREL

Swimming pools are a necessary adjunct to the modern school, and bathing suits for the students constitute an item which must be given consideration in the school purchases. Many schools furnish the bathing suits for the students, laundering and sterilizing after use. Where students furnish their own apparel the purchases are often made through the athletic department of the school.

BELTS AND BELTING

Belts are usually made of leather tanned by oak bark. Raw hide is sometimes used, and is of considerable strength. Cotton belting has the advantage of being cheaper and stronger than leather. Chain belting consists of lengths of leather strung together on wire pins which are not bent as the belt passes over the pulley.

Allen Manufacturing Co., W. D.,

BLACKBOARDS

The schoolroom blackboard should be easy to write on, easily read from and easy to clean. The writing surface should be uniform in color, smooth and non-porous. See, Blackboards, Composition; also, Blackboards, Slate.

BLACKBOARDS—Composition

These boards are made up of paper, wood, gypsum, or some other composition as the base, and are then coated with a material that will produce a suitable writing surface.

BLUEPRINT FRAMES

These frames are similar in construction to a photograph printing frame except that they are much larger. The majority of them rely on the sun's rays for printing. There are some, however, known as vacuum frames, that are adaptable to either sun rays or electricity.

Dietzgen Co., Eugene, Chicago, New York San Francisco, New Orleans.

See announcement on page 961

BLUEPRINT PAPER

This paper is a specially prepared sensitized paper. When tracings are placed in contact with it and exposed to light rays, the drawings will be reproduced on the paper in white lines with a blue background after the paper has been developed by immersing in clean water.

Chicago Blue Print Company,

68 W. Washington St., Chicago, Ill.

Dietzgen Co., Eugene, Chicago, New York San Francisco, New Orleans.

See announcement on page 961

Favor, Ruhl & Co.,

425 S. Wabash Ave., Chicago.

U. S. Blue Print Paper Co.

201 S. Wabash Ave., Chicago, Ill.

BLUEPRINTING MACHINERY

There are two types of blueprinting machines, the cylindrical which are made in both continuous and non-continuous, and the horizontal which are all continuous. The cylindrical machine consists of two segments of curved plate glass. The tracing and paper is kept in contact with these plates by means of roller curtains. When printing an electric arc lamp is lowered into the cylinder. The horizontal machine is motor driven, the tracings and paper being fed in by means of belts onto the printing surface, which is lighted by arc lamps. Schools offering courses in drafting, shop work, and where it is necessary to have a large number of blueprints, have a need for such machines.

Dietzgen Co., Eugene, Chicago, New York San Francisco, New Orleans.

See announcement on page 961

Paragon-Revolute Corp.,

77 South Ave., Rochester, N. Y.

BOOK CASES—SCHOOL

Book cases for school use may be the cabinet style with panel or glass doors, or the standard sectional unit type. Either

style can be had in steel or wood. A school book-case should be as nearly dust-proof as possible, and should have adjustable shelves to accommodate books of different sizes.

Union School Furnishing Co.

4633 Fulton St., Chicago.

BOOK COVERS

Used to protect school books from daily handling and rough usage, book covers will greatly increase the lives of the books. They are manufactured in various grades of paper, cloth and leatherette.

BOOKPLATES

A label, impression, or inscription, showing the name or monogram of the owner of the particular book and frequently adorned with artistic embellishments, besides showing the owner's arms or heraldic device. They are generally pasted just inside the front board or cover of the book.

Handicraft Co.,
Minneapolis, Minn.

BOOKS

School boards and teachers are convinced of the advisability of providing for pupils' supplementary reading, and the number of adequate school libraries is constantly increasing. New books must be added to these libraries regularly if they are to be popular with the children. Boys and girls should be encouraged to think of books as part of the joy of life, and reading in no sense a duty.

BUILDING DIRECTORIES, CHANGEABLE

A large changeable bulletin board used in school buildings of the larger type where it is necessary or desirable to have some method of directing visitors to executive offices, classrooms, libraries, museums, or individuals.

Davenport-Taylor Manufacturing Co.,
412 Orleans St., Chicago, Ill.
See announcement on page 933
Tablet and Ticket Co., The,
Chicago, New York, San Francisco.

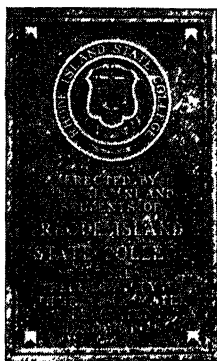

BULLETIN BOARDS

Notices displayed on a bulletin board will often receive attention where important verbal announcements sometimes fall on inattentive ears. See, Bulletin Boards, Changeable; also, Bulletin Boards, Cork.

BULLETIN BOARDS, CHANGEABLE

These boards are being made in several different types. In one type the letters, which are die cut, can be had in various sizes and colors and these letters are held on to the board by tabs which fit into slots. Another type uses letters which are printed on individual cards and which fit into slides in the board. Their usefulness lies in the ease with which bulletins may be changed or altered at will.

CARD INDEX SYSTEMS

Card indexes are used in schools for records of all kinds for the student, library, laboratory, and office. Just what system will be found preferable for each use will depend to a considerable extent on the information required and the size of the card used, as well as the amount of usage the file will receive. Where constant and

TRADE INDEX

frequent reference is required, a visible system may often be used. See, also, Filing Equipment

CHRISTMAS CARDS, FRATERNITY

The interchange of fraternity Christmas greeting cards has become a popular present day custom among school and college fraternities and sororities. A large variety of appropriate crested cards are manufactured for this special purpose, and may be had for any fraternity or sorority.

Skillcrafters, Inc.,
1719 Ranstead St., Philadelphia, Pa.

CINEMATOGRAPHS

Apparatus for projecting on a screen in rapid succession a series of pictures representing successive stages of appearances involving motion, thus producing a sensation of a continuously moving picture. Machines similar in principal are known by the names of biograph, bioscope, kine-scope, etc., and the effects they produce are called moving pictures. See Moving Picture Projecting Machines.

CIRCUMFERENTORS

A mathematical instrument used chiefly in connection with the surveying of mines. It consists of a compass, with diametrical sights, the dial of which is divided into degrees. This is attached to a stand and can be adjusted so that the angle which the line of sight makes with the magnetic north can be observed on the dial. See, Surveying Instruments.

GLASS PINS AND RINGS

This type of jewelry is usually made up in more or less standard designs which can be adapted to any school. Special designs can be had if desired. They are generally purchased by a student com-

FREE! Expert Art Service In Preparing Your ANNUAL COVER

You place yourself under no obligation by taking advantage of Becktold Service. It shows how your cover will look *before* you spend a cent. A card will bring you actual samples of Becktold Covers as used by other schools and colleges, also a sketch blank on which

to present ideas for your own cover. Our artists will then make up a finished drawing, showing how your cover will look when completed. Any design, picture, seal, etc., or any combination of colors may be incorporated in the cover. Write us today for this service.

CLINOMETERS

An instrument used by surveyors, geologists, etc., for measuring the dip or angle of inclination of surfaces. In its simplest form it consists of a graduated arc and a plummet. It is also manufactured in a form combined with a pocket compass, as it is generally necessary to know the direction of the slope as well as its amount. See, Surveying Instruments.

CLOCKS

Howard Clock Co., E.
373 Washington St., Boston, Mass.
Holtzer-Cabot Electric Co.
125 Armory St., Boston, Mass.
Thomas Clock Co., Seth
15 Maiden Lane, New York City.

CLOCKS, ELECTRIC PROGRAM

A necessary requirement of the modern school is an automatic system providing accurate uniform time, and controlling a pre-arranged schedule or program for the ringing of class bells. The entire system is controlled by a master clock. Secondary clocks may be placed at will, and bells may be located in hallways or individual classrooms.

Standard Electric Time Co.,
Springfield, Mass.

CLUB PINS AND CHARMS

Social clubs, class and departmental societies, require appropriate pins and emblems for their organizations. These may be of special design to fit the particular activities and purposes of the club or association.

COMPASSES

Instruments for describing arcs and circles, or for measuring distances. They consist of two legs joined together at one end by a hinged joint, and having one leg furnished with a pen or pencil. Compasses are divided into common, spring, beam and proportional compasses, according to their kind. Triangular compasses have three legs, so that the three points of a triangular may be transferred at once. Hair and bow compasses are

CRUCIBLES

Open vessels used for melting and calcining substances which need the application of extreme heat, such as metals, ores, glass, etc. They must be made of some infusible, unbreakable substance. Those made of fire-clay and coarse sand is the commonest kind. For analytical purposes platinum and porcelain are much used. Lime or carbon crucibles will withstand the highest temperatures. See, Laboratory Equipment.

CURTAINS, STAGE

School auditoriums equipped for any form of theatricals or entertainment require a stage curtain. These curtains are made to order and can be had either in the type used by theatres, or in the form of a drape made from velour or other heavy fabric.

DENTAL EQUIPMENT

The care of the teeth of the student is a very important means of caring for the health of the child. Schools are requiring periodic examinations of the teeth of all pupils, and in many instances caring for the needed work through a staff dentist.

- Betz Co., Frank S.,**
Hammond, Ind.

DEODORIZERS

This equipment is a means of destroying bad odors in a room or building. Some of the types actually spray a deodorizing chemical into the air, while others allow the material to evaporate and mix with the air in the room. They are especially valuable in large school assembly rooms where there is danger of the air becoming stale.

DESKS

The school desk or chair plays an important part in the shaping of the physical body during the formative stage of school life. A comfortable position for both teacher and pupil must be the background for all sustained mental effort. See, Desks, Pupils; also, Desks, Movable Chair, also, Desks, Teachers.

Dietz Co., J. F.,
4851 Spring Grove Ave., Cincinnati, O.
See announcement on page 955

DESKS, PUPILS

School seats and desks for the pupil should be constructed in such manner as will be most conducive to the comfort and health of the occupant, permitting of an easy and natural writing or study position for the child. In addition they should be both durable and sanitary. Various types and styles are offered by the different manufacturers. See, also, Desks, Movable Chair.

CHICAGO

--- THERE IS NO SECRET

School officials everywhere are rapidly installing the modern FINNELL Electric Floor Scrubbing-Polishing System. They have seen how inadequate to the modern standards of cleanliness are old fashioned hand and knee methods of scrubbing and mopping and have found that electric machines, and auxiliary units of floor maintenance equipment, insure floors that are spotlessly clean and beautifully wax-polished at a great saving in time, labor and dollars.

FINNELL SYSTEM provides the scientific solution to all school floor cleaning and wax-polishing problems. The FINNELL Machine, with its rapidly rotating brushes, scours loose all the dirt. Another unit picks up the dirty water and scrubbing emulsion, leaving a thoroughly cleaned floor surface.

Then, the same machine applies wax and polishes just as efficiently as it scrubs. The FINNELL is easily operated by inexperienced labor and, by virtue of the low front construction, works beneath low set furnishings and fixtures such as school desks, tables, gymnasium equipment, radiators, etc.

To point out the versatile service available through a just-right size FINNELL SYSTEM, the following expression voices the sentiment of thousands of FINNELL users. Mr. Price L. Collier, Superintendent of Schools at Richmond, Missouri, writes:

"My first observation on FINNELL Equipment was that it would scrub better than any janitor that you could hire, regardless of the salary paid or the time spent on school floors.

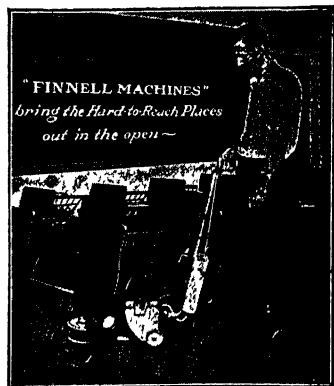

"We have gone almost exclusively to wax products for our school floors during the past two years and the FINNELL Machine is indispensable for maintaining this type of surface.

"From the point of view of school housekeeping, we have never made a better investment."

It makes no difference whether your floor area be 500 or 1,000,000 sq. ft. of wood, marble, composition, cement, rubber, linoleum, etc., or a combination of these, or whether the job to be done is scrubbing, waxing or polishing, there is a right size FINNELL SYSTEM to satisfactorily and economically meet your needs.

By installing an adequate FINNELL SYSTEM, you too, will have spotlessly clean and beautifully wax-polished floors.

Write for further particulars or a demonstration. Neither course will obligate you.

DRAWING BOARDS AND TABLES

Drawing boards should be so constructed as to eliminate any possibility of warping out of square. Some boards are unmounted which may be used any place, while others are mounted in some manner. The mounted boards may be arranged so as to be folding or stationary. The stationary boards are made with iron or wood pedestals, and in some cases are provided with drawer space to take care of instruments, paper, and other materials.

DRINKING FOUNTAINS, SANITARY

These fountains are of the bubbling type, and are manufactured in pedestal and wall design. Where the water does not need to be purified they are attached direct to the water supply pipes. In case filtration is needed, the filter is attached to the supply pipes and the fountain operated from the filter. Sanitary drinking fountains are being installed in modern school buildings, on the playground and the athletic field, as they provide pure, fresh, clean water at all times, and in addition prevent the spread of contagion arising from germ-laden mouths.

EASTMAN CLASSROOM FILMS

*Now used by school systems in thirty foreign countries
as well as in the United States*

The teaching value of Eastman Classroom Films is clearly indicated by the fact that they are now being used not only in the United States but in thirty foreign countries as well.

About one hundred films are now ready on topics of General Science, Geography and Health, and many more are in preparation. Others are scheduled for early production, in accordance with a carefully worked-out plan to cover comprehensively all topics that lend themselves to treatment by the motion picture.

Send for your copy of "A New Descriptive List of Eastman Classroom Films."

KERN DRAWING INSTRUMENTS

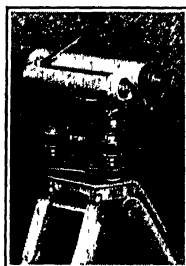

KERN SURVEYING INSTRUMENTS

KERN OPTICAL INSTRUMENTS

KERN COMPANY 136 Liberty Street NEW YORK, N. Y.

KERN DRAWING INSTRUMENTS, made in Aarau, Switzerland, for over 100 years, are regarded by teachers as a genuine help in their educational work. These high quality instruments are priced specially attractively for school use. A full line of loose instruments and over 200 combinations of drawing sets are in stock for immediate delivery.

Kern Surveying Instruments and Astronomical Instruments.

These most modern instruments prove to be not only the preference of progressive surveyors, but also the most easily handled equipment for all grades of schools. Their astounding ruggedness makes them the ideal demonstration equipment. Their quality and accuracy are unsurpassed. Descriptive Catalogues free on request.

Von Duprin

**Self-Releasing
Fire and Panic Exit Latches**

VON DUPRIN Self-Releasing Fire and Panic Exit Latches are so simple in design, so sturdily built, so dependable in operation that they have become standard equipment on the school house doors of most of the larger American cities and many of the smaller ones.

Their high quality and reliability gives them such freedom from trouble and from servicing expense that their cost per year is surprisingly low.

Quality Since 1883

Food Supplies for Educational Institutions

The institutional buyer demanding value insists that to have value quality must be maintained. This uncompromising attitude has resulted in careful and scientific analyses. It has developed a fine appreciation of the economy of better foods. Better foods mean increased efficiency and more satisfied guests and pupils.

Nearly fifty years of specialized service in the supply of Hotels, Restaurants and Institutions has enabled us to know something of the problem confronting institutional buyers. Out of this knowledge and cooperation, we have evolved an assortment of foods particularly suited to their individual requirements. Our Edelweiss label has become the symbol of fine foods economically packed; our quotations are received with interest wherever close and intelligent buying prevails.

The service of our Dietetic Department is available to you. Through the solution of the problems of other institutions, we may have immediately available information particularly helpful to you. We invite you to use this service.

COFFEE IMPORTERS, BLENDERS AND ROASTERS

John Sexton & Company

America's Largest Distributors of No. 10 Canned Foods

P. O. BOX-JS

CHICAGO

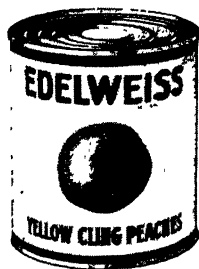

If you went into the finest garden and selected the vegetables to serve your pupils you could find no better than those which come to you packed under the Edelweiss label. Each vegetable distributed by Sexton is selected where soil and climate are best suited to its perfect production. Picked at just the right time, and packed on the spot, they reach you retaining all the vitamin value, full flavor and succulence of the fresh vegetable.

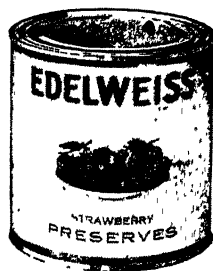

All of Sexton's Canned Fruits are equally delicious. All are allowed to completely ripen in the sun before being picked. Each fruit is obtained from the locality where it grows best—and then only the choice of the crop is taken. Packed in No. 10 tins, the container most economical for school cafeteria use.

Delicious Edelweiss preserves, jellies, marmalades and fruit butters, made in Sexton's Sunshine Kitchens, are of excellent quality because the materials from which they are made—selected fruits and cane sugar—are the finest obtainable. They are made with great care, in small quantities, giving them the beautiful color and the delicious appeal of home made preserves. In our Sunshine Kitchens we also prepare a complete assortment of pickles, relishes and condiments of quality. Edelweiss quality mayonnaise dressing, catsup, mustard and chili sauce packed in handy gallon glass bottles.

Among other Edelweiss Foods particularly popular with school cafeterias are: Individual tea, cocoa, gelatine dessert, chocolate pudding, peanut butter, macaroni, spaghetti, canned fish, paper napkins and paper specialties, Edelweiss No. 10 cans soups, dried fruits and tapioca.

If one of our representatives has not called on you please write us.

150 Pounds
Pressure

CRANE VALVES

2500 Pounds
Pressure

School men should consider pennies by saving vs. dollars by economy

It is shortsighted to lavish equipment on one department at the expense of another. But how much economy will plumbing and heating stand? Certainly by purchasing inferior materials efficiency is not only lowered, but the health of children is endangered. Then, too, it is an experiment that is paid for by increased maintenances, costly repairs and expensive replacements.

Crane engineers have studied this problem. They are prepared to offer a solution to it . . . to lower the cost of plumbing and heating systems without endangering either efficiency or the building budget. Already they have done it for numberless schools throughout the country. If you will drop into the nearest Crane Exhibit Rooms, you will be shown how they can do it for you.

Holcomb Cleaning Brushes Cleaning Chemicals

Thousands of school and college buyers come to *Cleaning Headquarters* for their floor brushes. . . . Eight years ago, the buyer of a large city school system wrote us "I have been buying from your firm for fifteen years, but in that time I have given trial orders to 'the stranger' with the 'just as good as Holcomb's and lower in price' lingo—and I usually got the 'hot end' of a bargain—I am cured this time for good"—and this buyer is still coming to *Cleaning Headquarters* for his floor brushes.

LATHES

Lathes for school shops are of two types, those for metal working and those used in the woodworking courses. The metal-working lathes used by schools include the speed lathe, the engine lathe, and the turret lathe. The engine lathe is probably the most used since all work such as turning and screw cutting is done on it. The turret lathe which is used for multiple operation work will be found only in schools teaching advanced machine shop courses. The speed lathe is used almost exclusively for small operations such as polishing, etc.

LINENS FOR SCHOOLS

Boarding schools, and schools operating dining rooms, lunch rooms, and dormitories, require table linen, sheets, pillow cases, towels, etc. Many of the colleges furnish bath towels to the students for use in their athletic departments.

LINEN MARKERS

Annoyance and loss of time occasioned by re-marking linen is eliminated by the use of linen markers. One type is provided by a small machine with a name plate which prints in indelible ink. Another is the name tape variety, with the name either embroidered or indelibly printed in ink.

LIQUID SOAP

A soap so manufactured that it retains a liquid form. It is used with a dispensing system and in addition to being very sanitary, it is an economical method of handling the soap problem for school washrooms.

TRADE INDEX

TRADE INDEX

MICROMETERS

Instruments for measuring accurately very small angles or spaces, and are generally used in connection with a microscope or telescope. They are made in a great variety of forms, but in nearly all types the measurement is made by turning a very fine screw, which gives motion to a scale, lens, or ruled glass plate. See, Surveying Instruments.

MICROSCOPES

Microscopes for school work have considerable variance in quality and precision depending entirely upon the work for which they are to be used. They can be secured having a magnifying power from thirty or less diameters up to a thousand diameters. In the simple microscope a single convex lens, between the eye and the object, forms an enlarged image. In the compound microscope an object glass or objective, near the object, forms a real image, which is viewed by the observer through a magnifying eyepiece. Either objective or eyepiece, or both, may be composed of more than one lens.

PIANOS

Pianos are a necessary part of all school equipment, every school building being provided with one or more instruments. Schools having an auditorium should provide a grand piano. In schools where piano lessons are given, each practice room must have an instrument. In the grade schools a special small sized piano which can be moved from room to room is often used. This piano is also low enough that the teacher can see over the top of it and direct the singing of the class while playing.

PICTURE CORDS, SILK

These cords are made of heavy wire, and covered with silk cord, and have covered hangers and thick tassels, and are fitted with adjustable combination hooks for use on either nail or moulding.

Porter-Motter Mfg. Co.,
1214 W. Madison St., Chicago

PICTURE FRAME MOULDINGS

For use in those manual training departments wishing to frame their own pictures. They are furnished ready to mitre into picture frames.

Porter-Motter Mfg. Co.,
1222 W. Madison St., Chicago.

PICTURE FRAMING SUPPLIES

For the many small items needed in the manual training work rooms, time and expense may often be saved by purchasing for one shipment from a house that operates work shops of their own.

Porter-Motter Mfg. Co.,
1222 W. Madison St., Chicago.

PICTURES

Pictures used in class and assembly rooms are usually prints of well known pictures, and of famous men. Several firms also put out prints of well known pictures for use in art study, and which may be used to familiarize students with the best known masterpieces of the world.

PLAYGROUND APPARATUS

School playgrounds provide a very definite means of keeping the children off the street during that short period before and after school hours, and also provide a means for supervised exercise during the recess period. The equipment consists of swings, see-saws, universal waves, giant strides, slides, horizontal bars, flying rings, etc., which may be secured separately or in combination units.

PRINTING OUTFITS—SCHOOL

The teaching of printing in schools as part of their vocational work has met with much favor. In addition to its vocational value, printing teaches the use of punctuation marks, the making of proper margins, the use of good English, correct spelling, capitalization, and indentation in an accurate manner. School printing outfits are designed for the smallest schools to largest universities.

PROGRAM CLOCKS See, Clocks**PROJECTION LANTERNS**

Apparatus for projecting upon a white screen enlarged representations of diagrams, pictures, etc., drawn or photographed on glass slides. They are a modified stereopticon in which an apparatus is introduced in front of the condensing lenses and a powerful arc lamp used. To project microscopic objects, a microscope objective is placed in the axis of the rays of the condensing lenses and the image of the object is focused directly on the screen. To project spectra, a dispersing prism is placed in front of the object lens. See also, Stereopticons; also, Motion Picture Machines.

PROSCENIUM CURTAINS See, Curtains, Stage**PROTRACTORS**

An instrument used in drawing and mathematical work for measuring and laying off angles, consisting usually of a graduated arc or circle bearing a radial arm, and sometimes a vernier. They are made of paper, wood, metal, celluloid, and other materials. See, Drawing Instruments.

PUBLIC ADDRESS SYSTEMS

Large indoor and outdoor audiences frequently require a public address system in order that they may hear distinctly and plainly every event on the program. In stadiums, parks, and athletic fields, these systems are used to report results, make announcements, and entertain. Proper systems can also be installed in halls and

Athey shades have been installed in many hundreds of schools. They are essential because there is perfect light control which is particularly important in schools, thus eliminating eye strain. They function as an automatic ventilator, they are never touched with the hand, they are good for 10 years of service and hence economical, and very attractive in appearance. Circle heads may be treated with sunburst shades.

The cloth is a herringbone woven coutil, 200 threads per square inch, guaranteed sunfast, pleated to $1\frac{3}{8}$ ", stitched at each fold and made in 7 colors. They raise from the bottom and lower from the top, sustained at each side by strained brass wires as shown by the sectional cut. The cord case at the head is a steel channel with brass rollers for the cords, both the wires and cords passing through perforations in the cloth.

This skylight installation is in one of many school installations in Cleveland, two large skylights operated in unison with an endless woven wire cable diverted over ball bearing shives, which leads to a winch back stage. The principle in operation is the same as the vertical shade except that it operates horizontally, sustained on taut wires by brass clips at each fold of the cloth. When moving pictures are shown the collapsed shades merge from the pockets which conceal them and disappear in like manner when not in use.

Cloth-Lined Metal Weatherstrip

Is produced solely by this company and is the only weatherstrip which prevents the infiltration of dirt as well as cold air, and the same method is used in treating metal windows.

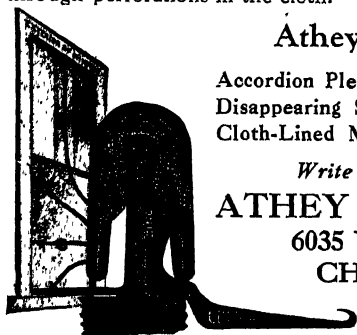

The City Sanitarium of St. Louis, the largest hospital in the country, was weatherstripped two years ago. They report that the first winter they abandoned one 350 hp. boiler, saved \$10,500 in coal plus the cost of stoking this extra coal and removing ashes, and cancelled a \$2,000 order for blankets.

STATUARY

Statuary furnishes educational and illustrative material for several departments, from ancient history to art, and it serves a practical use when given to the school as a memorial from classes and organizations. Very good reproductions of well known "originals" are furnished in marble, bronze, or composition. When determining the material from which the statue shall be made, purchasers should consider the usage to which it will be put, whether it will be a feature of the exterior or interior of the school building, and whether it will be used as subject matter for art or other classes.

TEACHERS' AGENCIES

The reliable teachers' agency offers a genuine service to teachers, and to school boards and school officials, by recommending suitable teachers for suitable positions. The agency collects definite and reliable information with reference to the character, training, personality, experience and professional spirit of each candidate. This information is presented in convenient form for the inspection of school officials.

NOW—all the well-known advantages of VARNISH and FLOOR WAX combined in one perfect floor treatment . . . plus a number of advantages made possible for the first time. . . .

1. Car-Na-Var gives beautiful, lustrous finish to floors of wood, linoleum, mastic, cement, cork, etc.
2. Improves with wear. Traffic friction enhances the polish.
3. Non-slippery—always safe.
4. Protects floors from wear.
5. Cuts maintenance costs in half; easily cleaned—no scrubbing.
6. Durable—wears 3 times as long as wax.
7. Repairs don't show overlap.
8. Applied with a mop.
9. Ready for traffic in an hour.

WINDOW SHADES

In the lighting of the schoolroom, much care should be exercised in the control of daylight through the use of proper shades. Shade cloth should be used which will tone the light to give eye-comfort, and bar out injurious glare. A good shade cloth will not crack, wrinkle, or show pin holes with usage.

*The Benjamin
'Type 79'
Glassteel Diffuser*
beautifully designed

Schoolrooms

For the interior lighting of schoolrooms, the Benjamin "Type 79" Glassteel Diffuser is admirably adapted. It provides excellent distribution of light for general illumination, and is well constructed.

Night photo of the Asbland College athletic field, Asbland, Ohio, lighted with Benjamin Concentrating Type High Mounting Units. Notice remarkably uniform level of illumination throughout the playing area.

LIKE miniature golf, tennis, baseball, etc., high school football has entered the realm of nighttime sports, and now parents, too, can attend the games.

Philosophically, this development in high school athletic games means more enjoyment for more people, since the leisure hours of most adults are confined to the evening.

Installation of equipment is merely a matter of days. The cost of current is negligible, and Benjamin equipment pays for itself in a short time by the increased attendance.

Benjamin equipment meets the needs of the various types of athletic fields. Write for data sheets.

Request also a copy of "Lighting of Night Football Playing Fields," by Russell L. Guin, principal of the Westville, Ill., high school.

Jacobsen 4-Acre Power Lawn Mower

Beautiful School Lawns At Lower Cost

WELL kept school lawns, buildings and equipment are important in moulding the ideals and habits of the student. There is a Jacobsen model for every lawn, large or small.

The Jacobsen 4-Acre Heavy Duty Mower is used by the largest colleges and universities. With or without riding sulky it will cover more ground per day than any other mower of same size, and with a lower upkeep cost than any other walking-type power mower. It has a 24-inch reel, an enclosed gear drive, auto-type differential, separate clutch control

of traction and cutting unit, self-sharpening reel and other outstanding refinements. A Sickle-Bar clipping attachment may be had which clips dandelions and other weeds at the same time the lawn is mowed.

The "Junior" Power Mower is a quality Jacobsen Product with a 19-inch cutting reel. Suitable for moderately large lawns—particularly efficient on terraces.

FREE Demonstrations

A trial demonstration given on request, without obligation.

Write for free book, "Lawns Beautiful."

CHICAGO

Consider these exquisite matters

WONDROUS fruits, tender as rose petals — fruits plucked at the precise moment in which they attain their dew dappled perfection. Sealed in their neat containers in bright clear syrups without loss of even a whisper of their field-fresh flavor.

Such are Richelieu and Ferndell and Batavia fruits—selected and prepared to epicurean standards and priced to average pocketbooks.

Vegetables saturated with the freshness of fragrant fields

at dawn, with flavors that send little ripples of “Oo!” and “Ahs” coursing around the dinner table—so incomparably fine that we contemplate them with reverence.

You will find more than 500 different Richelieu and Ferndell and Batavia foods, each one identical, no matter which label you buy them under. Each one prepared from our own special recipes using only the very finest varieties of each fruit and vegetable and ingredient.

Sprague, Warner & Company
